LETTER OF RECOMMENDATION

To Whomsoever It May Concern

Dear Internship Coordinator,

I am writing this letter of recommendation for **Mrs. Muskan Choudhary,** who was a student in my Cloud Computing course at Symbiosis University Of Applied Sciences. Muskan has been an exceptional student, consistently performing well in the course and demonstrating a passion for data science and cloud computing.

Muskan demonstrated an exceptional aptitude for data analysis and a keen interest in the application of cloud computing to data science. Her proficiency in programming languages like Python and R was noteworthy, and she consistently produced outstanding work that showcased her expertise in the field. During the course, Muskan demonstrated strong technical skills in the field of cloud computing, particularly in the areas of data storage and analysis. Her ability to apply cloud computing principles to real-world problems was impressive, and she consistently produced high-quality work that demonstrated a deep understanding of the subject matter.

One of the things that stood out about Muskan was her ability to work well under pressure. She was always willing to take on challenging projects and showed a remarkable ability to analyze complex data sets to derive meaningful insights. She demonstrated a willingness to collaborate with her peers on projects and was always open to feedback and suggestions. Based on my observations of her work in my class, I have no doubt that Muskan would be an asset to any data science internship program. Her strong analytical skills, technical abilities, and work ethic make her an excellent candidate for such a program.

I am confident that Muskan will excel in any data science internship program that she is accepted into. She has a strong work ethic and is always willing to go above and beyond what is expected of her. Additionally, she is a quick learner, a great team player, and possesses excellent communication skills. I highly recommend Muskan for any data science internship opportunity, and I am confident that she will exceed your expectations.

Please do not hesitate to contact me if you require any further information.
