Letter of Recommendation

To Whom It May Concern

Dear Internship Coordinator,

I am writing to recommend **MUSKAN CHOUDHARY** for an internship in Data Science. I have had the pleasure of teaching and mentoring her for last 3 years at SYMBIOSIS UNIVERSITY OF APPLIED SCIENCES, INDORE, and I can confidently say that she is an outstanding candidate for an internship in this field.
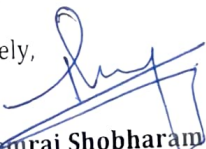

MUSKAN has a solid foundation in mathematics, programming, and statistics, which are essential skills for a career in Data Science. In project (https://github.com/muskan9926), she demonstrated excellent analytical and problem-solving abilities. She also has experience with several programming languages, including C++, PYTHON, R, MATLAB, & WOLFRAM MATHEMATICA, and is skilled in data analysis and visualization tools such as TensorFlow, SPSS, Keras, Orange, Spark, Flume, and Cloud Analytics.

In addition to her technical skills, **MUSKAN** has excellent communication and teamwork abilities. She worked collaboratively with team members on a group project, consistently contributing insightful ideas and being receptive to feedback. She is also able to explain complex technical concepts in simple terms, which is an invaluable skill when working with non-technical stakeholders.

MUSKAN has a strong interest in Data Science and is always seeking opportunities to learn more about the field. She has attended conferences & workshops on Data Analytics, which is a testament to her commitment to professional development. I am confident that she would be an asset to your organization and would excel in an internship in Data Science. She has the technical and interpersonal skills, as well as the motivation and enthusiasm, to contribute meaningfully to your team.

I highly recommend **MUSKAN** for an internship in Data Science.

Sincerely,

Dr. Hemraj Shobharam Lamkuche
Cryptologist | Assistant Professor,
School of Computer Science and Information Technology (SCSIT),
